SECTION 2

IMPORTANT INFORMATION ON GETTING THE CARE YOU NEED

Each time you get health services, check to be sure that the provider is a Plan network provider. In most cases, you need to use Plan network providers to get your services. Members receive a Provider Directory. It lists Plan network providers. It is current as of the date it is printed. To verify current information, you can call the provider, call Member Services at the phone number in Section 1, or visit our website listed in Section 1.

You may choose a Plan network qualified health care provider or clinic. This is your primary care clinic. We encourage you to consult with your primary care clinic for health services.

Your primary care clinic or qualified health care provider will arrange most of your medical care. It is important that one qualified health care provider knows about all your medical needs. The qualified health care provider can make sure you get the care you need.

Your clinic or qualified health care provider will refer you to other qualified health care providers when needed.

You do not need a referral to see a Plan network specialist. However, your primary care clinic can provide most of the health care services you need, and will help coordinate your care.

Contact your primary care clinic for information about the clinic's hours, referrals, service authorizations and to make an appointment. If you cannot go to your appointment, call your clinic right away.

You may change your primary care provider or clinic. To find out how to do this, call Member Services at the phone number in Section 1.

Transition of Care:

If you are a newly enrolled member who is currently receiving care from a provider who is not a Plan network provider, we will help you transition to a network provider.

Service authorizations:

Our approval is needed for some services to be covered. This is called service authorization. The approval must be obtained before you get the services or before we pay for them. Many of these services are noted in Section 7. For more information, call Member Services at the phone number in Section 1.

In most cases, you need to use Plan network providers to get your services. If you need a covered service that you cannot get from a Plan network provider, you must get a service authorization from us to see an out-of-network provider. Exceptions to this rule are:

- Open access services: family planning, diagnosis of infertility, testing and treatment of sexually transmitted diseases (STDs) and testing for AIDS or other HIV-related conditions are open access services. You can go to any health care provider, clinic, pharmacy or family planning agency that is licensed in Minnesota and registered with the Department of Human Services (DHS), even if it is not in our network to get these services.
- Emergency and post-stabilization services

For more information, call Member Services at the phone number listed in Section 1.

The Plan allows direct access to the providers in our network, but keeps the right to manage your care under certain circumstances, such as: transplant services. We may do this by choosing the provider you use and/or the services you receive. When we manage your care, our nurse care manager and network providers will coordinate your care. For more information, call Member Services at the phone number in Section 1.

If we are unable to find you a qualified Plan network provider, we must give you a standing service authorization for you to see a qualified specialist for any of the following conditions:

- A chronic (on-going) condition
- A life-threatening mental or physical illness
- A degenerative disease or disability
- Any other condition or disease that is serious or complex enough to require treatment by a specialist

If you do not get a service authorization from us when needed, the bill may not be paid. For more information, call Member Services at the phone number in Section 1.

SECTION 2

If a provider you choose is no longer in our Plan network, you must choose another Plan network provider. You may be able to continue to use services from a provider no longer a part of our Plan network for up to 120 days for the following reasons:

- An acute condition
- A life-threatening mental or physical illness
- A physical or mental disability defined as an inability to engage in one or more major life activities. This applies to a disability that has lasted or is expected to last at least one year, or is likely to result in death.
- A disabling or chronic condition that is in an acute phase

If your qualified health care provider certifies that you have an expected lifetime of 180 days or less, you may be able to continue to use services for the rest of your life from a provider who is no longer part of our network.

For more information, call Member Services at the phone number in Section 1.

At Hennepin Health, we have staff who can help you figure out the best way to use health care services. If you have questions about things like where to get services, getting authorization for services, or restrictions on prescription drugs, we can help. Call us at 612-596-1036 between 8:30 a.m. and 4 p.m., Monday through Friday. If you need language assistance to talk about these issues, Hennepin Health can get help in your language through an interpreter. For sign language services, call 1-800-627-3529. For other language assistance, call 612-596-1036.

Covered and non-covered services:

Enrollment in Hennepin Health does not guarantee that certain items are covered. Some prescription drugs or medical equipment may not be covered. This is true even if they were covered before.

Some services and supplies are not covered. All health services must be medically necessary for them to be covered services. Read this EOC carefully. It lists many services and supplies that are not covered. See Sections 7 and 8.

Some services are not covered under Hennepin Health, but may be covered through another source. See Section 9 for more information. If you are not sure whether a service is covered, call our Member Services at the phone number in Section 1.

We may cover additional or substitute services under some conditions.

Cost sharing:

You may be required to contribute an amount toward some medical services. This is called cost sharing. You are responsible to pay your cost-sharing amount to your provider. See Section 6 for more information.

Payments to providers:

We cannot pay you back for most medical bills that you pay. State and federal laws prevent us from paying you directly. If you paid for a service that you think we should have covered, call Member Services.

You may get health services or supplies not covered by the Plan if you agree to pay for them. Providers must have you sign a form acknowledging that you will be responsible for the bill. Providers must have a signed form before providing services or supplies that are not covered by the Plan.

Interpreter services:

We will provide interpreter services to help you access services. This includes spoken language interpreters and sign language interpreters. Face-to-face oral language interpreter services are only covered if the interpreter is listed in the Minnesota Department of Health's Spoken Language Health Care Interpreter Roster. Please call Member Services at the phone number in Section 1 to find out which interpreters you can use.

Other health insurance:

If you have other health insurance or Medicare, you will no longer remain eligible for MinnesotaCare. Make sure to tell your MinnesotaCare worker about any other insurance that covers you or your children.

If you have Medicare, you need to get most of your prescription drugs through the Medicare Prescription Drug Program (Medicare Part D). You must be enrolled in a Medicare prescription drug plan to get these services. The Plan does not pay for prescriptions that are covered under the Medicare Prescription Drug Program.

SECTION 2

Private information:

We, and the health care providers who take care of you, have the right to see information about your health care. When you enrolled in the Minnesota Health Care Program, you gave your consent for us to do this. We will keep this information private according to law.

Restricted Recipient Program:

The Restricted Recipient Program is for members who have misused health services. This includes receiving health services that members did not need or using them in a way that costs more than they should.

You must get health services from one designated primary care provider, one pharmacy, one hospital, or other designated health services providers. You may also be assigned to a home health agency. You may not be allowed to use the personal care assistance choice or flexible use options, or consumer directed services.

You will be restricted to these designated health care providers for at least 24 months of eligibility for Minnesota Health Care Programs (MHCP). All referrals to specialists must be from your primary care provider and received by the Restricted Recipient Program. Restricted recipients may not pay out-of-pocket to see a non-designated provider who is the same provider type as one of their designated providers.

Placement in the program will stay with you if you change health plans. Placement in the program will also stay with you if you change to MHCP fee-for-service. You will not lose eligibility for MHCP because of placement in the program.

At the end of the 24 months, your use of health services will be reviewed. If you still misused health services, you will be placed in the program for an additional 36 months of eligibility. You have the right to appeal placement in the Restricted Recipient Program. See Section 13.

Cancellation:

Your coverage with us will be canceled if you are not eligible for MinnesotaCare or if you enroll in a different health plan.

If you are no longer eligible for MinnesotaCare, you may be eligible to purchase health coverage through MNsure. For information about MNsure, call toll free 1-855-3MNSURE or 1-855-366-7873, or visit www.MNsure.org.

Copays

MinnesotaCare has two different benefit sets: MinnesotaCare Child and MinnesotaCare. Members who have the MinnesotaCare Child benefit set do not have copays. For members who have the MinnesotaCare benefit set, some services require copays. A copay is an amount that you will be responsible to pay to your provider. You must pay your copay directly to your provider. Some providers require that you pay the copay when you arrive for the medical service. The hospital may bill you after your emergency or non-emergency visit to the emergency room.

Copays are listed in the following chart. Be sure you are reading the copay chart for the program in which you are enrolled. If you do not know which program you are enrolled in, call MinnesotaCare at 651-297-3862 or 1-800-657-3672 (toll free) to find out.

Members listed here do not have any cost sharing for health care services

The drug must be on our covered drug list (formulary).

The formulary includes the prescription drugs covered by Hennepin Health. The drugs on the list are selected by the plan with the help of a team of doctors and pharmacists. The list has to be similar to the list covered by Medical Assistance (Medicaid). In addition to the prescription drugs covered by Hennepin Health, some over-the-counter drugs are covered for you under your Medical Assistance (Medicaid) benefits. You can search for prescription drugs using our online search tool at www.hennepinhealth.org. A list of over-the-counter drugs is also posted on the website. You can also call Member Services and ask for a written copy of our *Formulary*.

There are limits or restrictions on coverage for some formulary drugs. These restrictions and limits may include:

- **Prior Authorization:** Hennepin Health requires you or your healthcare provider to get our approval before the plan will cover certain drugs
- **Quantity Limits:** For certain drugs, Hennepin Health limits the amount or dose of the drug that we will cover
- **Step Therapy:** In some cases, Hennepin Health requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition

You can get more information about the restrictions applied to specific covered drugs by visiting our website at www.hennepinhealth.org.

We will cover a non-formulary drug if your qualified health care provider shows us that: 1) the drug that is normally covered has caused a harmful reaction to you; 2) there is a reason to believe the drug that is normally covered would cause a harmful

reaction; or 3) the drug prescribed by your qualified health care provider is more effective for you than the drug that is normally covered. The drug must be in a class of drugs that is covered.

We will cover an antipsychotic drug, even if it is not on our drug list, if your provider certifies this is best for you. There is no copay for anti-psychotic drugs. In certain cases, we will also cover other drugs used to treat a mental illness or emotional disturbance even if the drug is not on our approved drug list. We will do this for up to one year if your provider certifies the drug is best for you and you have been treated with the drug for 90 days before: 1) we removed the drug from our drug list; or 2) you enrolled in the Plan.

For most drugs, you can get only a 30 day supply at one time.

If Hennepin Health does not cover your drug or has restrictions or limits on your drug that you don't think will work for you, you can do one of these things:

- You can ask your health care provider if there is another covered drug that will work for you.
- You and/or your health care provider can ask Hennepin Health to make an "exception" and cover the drug for you or remove the restrictions or limits. If your exception request is approved, the drug will be covered at the appropriate generic or brand name copay level.

If you request an exception, your doctor must provide a statement to support your request and send this to us. You can also call Member Services at the phone number in Section 1 for help.

If a pharmacy staff tells you the drug is not covered and asks you to pay, ask them to call your qualified health care provider. We cannot pay you back if you pay for it. There may be another drug that will work that is covered by us under the Plan. If the pharmacy won't call your qualified health care provider, you can. You can also call Member Services at the phone number in Section 1 for help.

Specialty drugs are prescribed to treat serious or chronic medical conditions such as multiple sclerosis, hemophilia, hepatitis and rheumatoid arthritis. These drugs may be oral or injectable. They can be self-administered or administered by a family member. You can find a list of specialty drugs here <http://www.hennepinhealth.org/providers/formulary>

We have a program for specialty drugs through a Specialty Pharmacy Network. If you need specialty drugs, you must use one of the providers in the Specialty Pharmacy Network as your specialty drug pharmacy. Specialty drug providers are experts in supplying drugs and services to patients with complex health conditions. They will give you information about your condition and the drugs that have been prescribed to you. You will have 24-hour access to pharmacists who can answer your questions. Please call Member Services at the number listed in Section 1 to find out which providers are in the Specialty Pharmacy Network program.

If you have Medicare, you will no longer remain eligible for MinnesotaCare. You need to get most of your prescription drugs through the Medicare Prescription Drug Program (Medicare Part D). USING THE PLAN COVERAGE WITH OTHER INSURANCE

If you have or obtain other health insurance or Medicare, you will no longer remain eligible for MinnesotaCare. Make sure to tell your MinnesotaCare worker about any other insurance that covers you or your children.

If you have other insurance, tell us before you get care. We will let you know if you should use the Plan network providers or the health care providers used by your other insurance. We will coordinate our payments with them. This is called “coordination of benefits.” Examples of other insurance include:

- No-fault car insurance
- Workers’ compensation
- Medicare
- Other Health Maintenance Organization (HMO) coverage
- Other commercial insurance

When you become a member of the Plan, you agree to:

- Let us send bills to your other insurance
- Let us get information from your other insurance
- Let us get payments from your other insurance instead of having payments sent to you
- Help us get payments from your other insurance

If your other insurance changes, call your MinnesotaCare worker.

SUBROGATION OR OTHER CLAIM

This first paragraph applies to certain non-citizen members in any MinnesotaCare benefit set:

You may have other sources of payment for your medical care. They might be from another person, group, insurance company, or other organization. If you have a claim against another source for injuries, we will make a claim for medical care we covered for you. State law requires you to help us do this. The claim may be recovered from any settlement or judgment received by you from another source. This is true even if you did not get full payment of your claim. The amount of the claim will not be more than state law allows.

This second paragraph applies to members in the MinnesotaCare Child and MinnesotaCare benefit sets, except certain non-citizens:

You may have other sources of payment for your medical care. They might be from another person, group, insurance company or other organization. Federal and state laws provide that Medical Assistance benefits pay only if no other source of payment exists. If you have a claim against another source for injuries, we will make a separate claim for medical care we covered for you. The laws require you to help us do this. The claim may be recovered from any source that may be responsible for payment of the medical care we covered for you. The amount of the claim will not be more than federal and state laws allow.

SECTION 13

Important information about your rights when filing a grievance or appeal, or requesting a state fair hearing:

If you decide to file a grievance or appeal, or request a state fair hearing, it will not affect your eligibility for medical services. It will also not affect your enrollment in the health plan.

Your provider may file a grievance or appeal, or request a state fair hearing, on your behalf. The provider must have your written consent. Your treating provider may appeal service authorization decisions *without* your consent.

You can have a relative, friend, advocate, provider, or lawyer help with your grievance, appeal, or state fair hearing.

You may request a state fair hearing at any time before, during, or after the Plan appeal process. You do not have to file an appeal with us before you request a state fair hearing.

There is no cost to you for filing an appeal or requesting a state fair hearing. We may pay for some expenses such as transportation, childcare, photocopying, etc.

If you ask to see your medical records or want a copy, we or your provider must provide them to you at no cost. You may need to put your request in writing.

If you have seen a medical provider who is part of our Plan network and want another opinion, you can get a second opinion. You must see another Plan network medical provider.

If you have seen a mental health provider who is part of the Plan network and have been told that no structured mental health treatment is needed, you may get a second opinion. See “Mental Health Services” in Section 7 for more information.

If you have seen a chemical dependency assessor who is part of our Plan network and you disagree with the assessment, you may get a second opinion. See “Chemical Dependency Services” in Section 7 for more information.

You must follow the timelines for filing grievances, appeals, and state fair hearings. If you go over the time allowed, we may not review your grievance or appeal and the state may not accept your request for a hearing.

You must file a grievance with us **within 90 days** from the date of the incident about which you are complaining.

You must file an appeal with us **within 90 days** from the date on the notice of action.

You must request a state fair hearing **within 30 days** from the date on the notice of action or **within 30 days** from the date of the resolution of a Plan appeal. You have up to 90 days if you have a good reason for being late.

If we are stopping or reducing a service, you can keep getting the service if you file a health plan appeal or request a state fair hearing **within 10 days** from the date we send you the notice, or before the service is stopped or reduced, whichever is later. **You must ask to keep getting the service when you file an appeal or request a state fair hearing.** The network provider who is treating you must agree that you should keep getting the service. The service can continue until the appeal or state fair hearing is resolved. If you lose the appeal or state fair hearing, you may be billed for these services.

For the Restricted Recipient Program, a member who receives a notice of restriction may file an appeal with us or may request a state fair hearing. You must file an appeal or request a state fair hearing **within 30 days** from the date on the notice from us. You have up to 90 days if you have a good reason for being late.
