Provider Bulletin

MAY 20, 2019

SUBJECT

Hennepin Health's 2019 Clinical Practice Guidelines

PROVIDERS AFFECTED

All

BACKGROUND

Hennepin Health's Quality Management Committee formally adopted five medical, three behavioral health and two substance use clinical practice guidelines from nationally or locally recognized sources.

KEY POINTS:

- Clinical practice guidelines are based on valid, reliable clinical evidence. At a minimum, the practice guidelines are reviewed and updated at least every two years (more frequently if the guidelines change within the two-year period).
- The adopted clinical practice guidelines are disseminated to the primary care, behavioral health/substance use and/or medical home providers through the Hennepin Health Provider Manual at least every two years or upon any revisions being made.
- The 2019 clinical practice guidelines were selected based on two primary factors:
 - Addressing medical and behavioral health/substance use practice areas relevant to Hennepin Health members
 - Aligning Hennepin Health-PMAP, Hennepin Health-MNCare and Hennepin Health-SNBC with the Minnesota Department of Human Services (DHS) contracts
- The clinical practice guidelines for all three product offerings include:
 - **Medical**
 - Preventive Services for Adults
 - Preventive Services for Children/Adolescents
 - Diabetes Type 2: Diagnosis and Management
 - Prenatal/Postpartum Care
 - Pain Management: Non-Opioid Treatment Options and Opioid Management

- **Behavioral Health/Substance Use Disorder**
 - Attention Deficit Hyperactivity Disorder (ADHD) – Children/Adolescents
 - Treatment of Patients, Adults with Major Depressive Disorders
 - Treatment of Patients with Schizophrenia
 - Treatment of Patients with Addiction to Opioids
 - Treatment of Patients with Alcohol Use Disorder

RESOURCES:

- The clinical practice guidelines are available in section 15 of the Hennepin Health Provider Manual located on www.hennepinhealth.org
- Contact Hennepin Health Provider Services at 612-596-1036 (select the provider service option) to request a paper copy of the Hennepin Health clinical practice guidelines or with any questions.
